NEWS RELEASE

CHELSEA BUILDING PRODUCTS, INC. LAUNCHES NEW WEBSITE

OAKMONT, PA — Chelsea Building Products, Inc. has launched a dynamic new website targeted at companies that develop, manufacture or distribute building products using extruded profiles in PVC, cellular foam or composite materials.

Chelsea's product development efforts have evolved to include vinyl window and door extrusions, cellular mouldings, exterior cladding, exterior shutters and other maintenance free, energy conserving products which are all featured on the site. Chelsea's material development, extrusion technology and value-added services has led to an ability to partner with building products fabricators, manufacturers and distributors to create unique extruded profiles.

Featured on the new website is Chelsea's diverse product offering as well as it's capabilities to provide customer specific solutions in product development. The site is also a wealth of industry information including important links, news feeds, communications and webinars. ChIP, Chelsea's Information Portal, is also linked to the site. The new site and ChIP provide the market 24/7 access to Chelsea Building Products, making it convenient to order product, research capabilities and communicate.

Check out our website at www.chelseabuildingproducts.com

Since 1975, Chelsea Building Products, Inc. has been designing and extruding PVC and composite profiles for the building materials market. From its headquarters in Oakmont, PA., Chelsea is an integrated manufacturer providing product design, material development, extrusion tooling technology and finished product to manufacturers and distributors throughout North America.
